
Programme Details

Market Segment

GGWA is available to corporate customers only and not to academic, government, or other types of organisations.

Licence Type

GGWA offers perpetual licences. Perpetual licences are everlasting and valid if the software is being used in accordance with the End User Licence Agreement requirements.

Products Included

Windows XP Professional

Software Maintenance Options

Software Assurance provides customers with several benefits, including upgrades, new versions of software and technical support. Customers can acquire Software Assurance within 90 days of purchasing GGWA via the **Open Licence, Open Value, Open Value Subscription, Select Licence, Enterprise Agreement** and **Enterprise Agreement Subscription** Volume Licensing programmes.

Software Assurance benefits vary with each Volume Licensing programme. In addition, server licences come with benefits that are different from those for desktop licences. Download the interactive **Software Assurance Benefits Comparison Chart** to get an at-a-glance view of which benefits a customer is entitled to, based on its Volume Licensing programme and Software Assurance plan.

Licensing Offerings

GGWA offers customers the licence only and is not combined with Software Assurance, which must be purchased separately (see above).

Online Services

Microsoft Online Services is not offered with GGWA.

Pricing

GGWA is not on the Volume Licensing price list. The GGWA SKU is E85-05204 Microsoft Windows XP Professional Get Genuine Windows Agreement. Contact your **Microsoft Authorised Distributor**, Partner Account Manager (PAM), or Regional Operations Centre (ROC) for pricing information. Note that for GGWA:

- Small and medium-size organisations must purchase a minimum of five licences.
 - Purchase minimum for large organisations varies by market. Contact your PAM for additional information.
-

Licensing Fulfilment

GGWA does not include disk kits. Customers can purchase media separately, for a fee. If your customers are running non-genuine software, they will need to purchase media.

Payment Options

Payment is due in full on order.

Agreement Term

The agreement term for GGWA is two months and is non-renewable.

Order and Licence Tracking

No Certificate of Authenticity is included. Your customers will receive an electronic confirmation that the order has been processed. This order confirmation, combined with a copy of the agreement and proof of payment, constitutes proof of licence.

If your customers have another Volume Licensing agreement - Open Licence, Open Value, Open Value Subscription, Select Licence, Enterprise Agreement, or Enterprise Agreement Subscription - they may track and monitor their licences easily and conveniently via the [Microsoft Volume Licensing Service Centre](#).

Installation and Activation

If your customers already have genuine software, no installation or activation is required. If your customers are running non-genuine software, they will need to install the genuine version with media and activate it using the volume licence key.

Terms and Conditions

All customers must agree to the following terms and conditions:

- Legalisation agreement, including audit clause, must be pre-signed
- Customer acknowledgement of legalisation
- Customer commitment to purchase legal software in the future
- One-time purchase only
- No transferability of licence - the licence applies only to the PC for which it was purchased.

Large organisations must also agree to the following terms and conditions:

- Sign a Master Business and Services Agreement if they don't already have one in place
- Commit to legalising all out-of-compliance Windows PCs
